KOBOLD WATCH COMPANY HUMAN RESOURCES ANNOUNCEMENT

PITTSBURGH – The Kobold Watch Company today announced a change in its internal operations: Effective July 1st 2008, the departure of Daniel Sciosica, who most recently was appointed Chief Operating Officer and who has decided to pursue other interests. We are proud of Dan’s many contributions to the tremendous success of the Kobold Watch Company and wish him well with his future endeavors. Dan extends his thanks and appreciation to all those associated with the Kobold Watch Company.

The Kobold Watch Company is America’s premiere watch manufacturer and the only watch company that produces a line of American-made wristwatches. The company was founded in 1999 by then 19-year-old Michael Kobold. Specializing in the manufacture of professional-grade tool watches, the company quickly made a name for itself among explorers, divers, pilots and military specialists around the world. Every Kobold watch is crafted by hand using the most exclusive materials and is powered by a mechanical watch movement. Kobold watches have been worn by explorers venturing to the world’s most remote locations, including the North Pole, Antarctica, Mt. Everest, and the Arabian Desert.
